# Tarek Al Dali

FULL-STACK WEB DEVELOPER

tarekaldali1@gmail.com | +961 71 365 925 | Saida, Lebanon | LinkedIn | GitHub

## PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience building responsive, user-friendly web applications using JavaScript, PHP, Python, React, and Next.js. Proven ability to deliver end-to-end solutions — from database design to polished frontends — with a collaborative mindset and a track record of real-world project contributions.

## EDUCATION

**Lebanese International University (LIU)** *Expected 2026*
Bachelor of Science in Computer Science

## WORK EXPERIENCE

**Full-Stack Web Development Intern** — The Digital Hub UNRWA *Jan 2026 – May 2026*

- Developed and maintained full-stack web features using Next.js and modern frontend frameworks
- Built reusable UI components and integrated them with backend APIs and database services
- Collaborated within a team environment using Git workflows and agile practices

**Junior Web Developer Intern** — Cyber Weaver, Saida *Jan 2025 – May 2025*

- Contributed to real-world projects using React, Next.js, Python, and Firebase
- Assisted in developing user interfaces, managing reusable components, and integrating frontend with backend services
- Applied collaborative workflows and version control practices in a professional environment

## PROJECTS

**ArchiCore** Next.js · MongoDB · Tailwind CSS GitHub ↗

Full-stack architecture studio platform combining a public portfolio (projects, services, blog, contact) with a secure admin CMS for content management, role control, and client inquiry tracking.

**AffordaHome** Next.js · MongoDB · Tailwind CSS GitHub ↗

Platform helping people in Lebanon find affordable housing and shelter listings, with an admin dashboard for managing listings and user inquiries.

**AI Image Generation Platform** Python · JavaScript · Supabase · Cloudflare R2

ComfyUI-based platform with user authentication, credit system, and subscription management supporting text-to-image, image-to-image, and inpainting workflows with real-time generation tracking.

**Tour Booking Mobile App** Flutter · Dart · Supabase GitHub ↗

Real-time trip deals mobile app featuring an admin dashboard and user authentication.
