

Tarek Al Dali

FULL-STACK WEB DEVELOPER

tarekaldalil@gmail.com | +961 71 365 925 | Saida, Lebanon | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience building responsive web applications using JavaScript, PHP, Python, React, and Next.js. Proven ability to deliver end-to-end solutions — from database design to polished frontends — with a collaborative mindset and a track record of real-world project contributions.

EDUCATION

Lebanese International University (LIU) — Bachelor of Science in Computer Science *Expected 2026*

WORK EXPERIENCE

Full-Stack Web Development Intern — [The Digital Hub UNRWA](#) *Jan 2026 – May 2026*

- Built web apps using React, Next.js, TanStack Query, and Zustand; developed backend APIs with Node.js, Express.js, FastAPI, and Django.
- Worked with MySQL, PostgreSQL, and MongoDB; deployed on Vercel and Render with CI/CD basics.
- Applied Git, GitHub, Agile/Scrum, Jira, SOLID principles, and clean code practices.

Junior Web Developer Intern — [Cyber Weaver, Saida](#) *Jan 2024 – Dec 2025*

- Contributed to real-world projects using React, Next.js, Python, and Firebase.
- Developed user interfaces, managed reusable components, and integrated frontend with backend services.

PROJECTS

LeadLinux *Next.js · MongoDB · Tailwind CSS*

LeadLinux is an AI-powered B2B SaaS platform that monitors online communities like Reddit to find high-intent leads in real-time. It uses an advanced extraction engine and LLMs to score buyer intent, delivering verified contact information directly to a chat-based discovery interface. The platform includes a premium dark-themed dashboard complete with subscription tiers, automated background listeners, and full administrative analytics.

ArchiCore *Next.js · MongoDB · Tailwind CSS*

Full-stack architecture studio platform with a public portfolio and a secure admin CMS for content management, role control, and client inquiry tracking.

AffordaHome *Next.js · MongoDB · Tailwind CSS*

Platform helping people in Lebanon find affordable housing and shelter listings, with an admin dashboard for managing listings and user inquiries.

AI Image Generation Platform *Python · FastAPI · JavaScript · Supabase · Cloudflare R2*

ComfyUI-based platform with user auth, credit system, and subscription management supporting text-to-image, image-to-image, and inpainting workflows.

Tour Booking Mobile App *Flutter · Dart · Supabase*

Real-time trip deals mobile app featuring an admin dashboard and user authentication.
